

**3 WAYS
TO ENABLE
RESILIENCE
IN YOUR TEAM**

Expand their Horizons

Especially amid uncertainty, it's healthy for teams to branch out and deepen their knowledge of how other areas in the organisation function.

Invest in their Expertise

The more knowledgeable your team is across a variety of areas, the more empowered they will feel to handle crises.

Identify their Priorities

During these times, it's crucial for a leader to provide direction to their team on which tasks to focus on and what to leave for later.
